

WELCOME

FROM ROTARY INTERNATIONAL TO NEW ROTARY CLUB MEMBERS

GET INVOLVED IN ROTARY

Like most members, you probably joined your Rotary club to help improve the quality of life in your community and make a difference in the world. For more than a century, Rotary clubs have been providing vital service within their local communities throughout the world. Their achievements are the result of dedicated member action and participation.

Research shows that the more Rotarians involve themselves in Rotary activities, the more committed and connected they become to their club and the association. Act now and volunteer your time and talents in those areas that are important to you and where you can make an impact, large or small.

Here are a few ways to become more active in your club — and in Rotary activities beyond the club level:

- Volunteer to serve on one or more club committees.
- Sit with different people at each meeting so you get a chance to connect with everyone in your club.
- Participate in your club's service projects and, whenever possible, get your family involved, too.
- Recommend a colleague or friend for membership in your club; bringing in new members is a key responsibility of all Rotarians.
- Make up a missed meeting at another club and bring some ideas back to your members.
- Attend your district conference and get to know Rotarians from other clubs.
- Work with one of the youth service programs — Rotaract and Interact — sponsored by your club.
- Join one of the many Global Networking Groups — Rotarians with common recreational interests, hobbies, vocations, or service interests — and expand your Rotary acquaintance to other countries.
- Volunteer to host a Youth Exchange student or Group Study Exchange team visiting your district.
- Attend the RI Convention and learn just how international and interconnected Rotary service is.

BEYOND YOUR CLUB: ROTARY INTERNATIONAL AND THE ROTARY FOUNDATION

The more than 33,000 Rotary clubs in over 200 countries and geographical areas worldwide are members of Rotary International, an association that supports the clubs' service efforts in their communities and around the world. Through RI, all Rotarians have access to an international network of clubs working both autonomously and in concert to address a variety of concerns.

RI is governed by a 19-member Board of Directors, made up of Rotarians from all over the world, which sets policy for the association. RI's day-to-day operations are overseen by the Secretariat, headed by a general secretary, with headquarters in the Chicago suburb of Evanston, Illinois, USA, and international offices in Argentina, Australia, Brazil, India, Japan, Korea, and Switzerland. The Rotary in Great Britain and Ireland (RIBI) office serves clubs in those countries. The approximately 650 staff members who work at the Secretariat assist and support Rotary districts, clubs, and members. Staff contact information is available at www.rotary.org.

The Rotary Foundation of RI, the philanthropic arm of the association, provides funding for clubs' humanitarian service efforts and supports exchange programs designed to enhance international understanding and goodwill. Supported almost entirely by the generosity of Rotarians, the Foundation awards millions of dollars each year to worthy projects carried out by clubs and districts working locally and in international partnerships. The Foundation also sponsors one of the world's largest privately funded international scholarships programs.

PolioPlus is Rotary's corporate project dedicated to eradicating polio worldwide. For more than 20 years, Rotary has led the private sector in the global effort to rid the world of this crippling disease. Significant support has come from the Bill & Melinda Gates Foundation, which awarded grants of \$355 million to Rotary for use in polio eradication. Clubs and districts are now working to meet Rotary's US\$200 Million Challenge to match the Gates Foundation grant, which is the largest grant ever given to a volunteer service organization. It represents a tremendous validation of the approach and success of PolioPlus.
